ROOF DOCTORS

Comfort and Savings Start in the Attic

Complete Guide to an Efficient Attic

Smarter solutions for a more comfortable, efficient, and protected home.

Homeowner Guide

ROOF DOCTORS

THE HOME EFFICIENCY SYSTEM

HOW IT WORKS TOGETHER!

Our complete home efficiency system is designed to work as a team — reducing heat, sealing air leaks, improving insulation, ventilating your attic, and protecting your roof for long-term performance and savings.

RADIANT BARRIER	Reflects up to 4.7× more of the sun's radiant heat, keeping your attic cooler and more efficient.
INSULATION	Adds a high-performance thermal barrier to keep conditioned air in and outdoor heat or cold out.
VENTILATION	Solar attic fans automatically remove trapped heat and moisture for a cooler, drier, healthier home.
AIR SEALING	Seals attic air leaks to stop energy loss and improve overall comfort and efficiency.
ROOF PROTECTION	Roof cleaning and Shingle Serum help restore, protect and extend the life of your roof.

A COMPLETE, INTEGRATED SOLUTION
FOR A COOLER, MORE EFFICIENT, AND LONGER-LASTING HOME!

ROOF DOCTORS

START WITH A CLEANER, BETTER-SEALED ATTIC

Clean Out the Old. Seal Out the Problems.

Better insulation starts by removing contaminated attic material and addressing hidden air leaks.

ATTIC INSULATION REMOVAL

Old insulation can hold dust, odors, debris, and reduced performance.

- Removes damaged or contaminated insulation.
- Improves the attic environment.
- Prepares the attic for upgrades.

THEN TREAT THE ATTIC FOR A FRESH, CLEAN START

ATTIC FRESH TREATMENT

AFTER REMOVAL: ELIMINATE ODORS

- Controls and eliminates attic odors.
- Creates a fresher, cleaner attic environment.
- Provides a better base for insulation upgrades.

NEXT: ADD NEW INSULATION FOR LASTING COMFORT

ROOF DOCTORS

FINISH WITH HIGH-PERFORMANCE INSULATION

Lock in comfort, control attic temperatures, and improve efficiency year-round.

BLOWN-IN INSULATION

Fresh attic insulation helps slow heat transfer, improve comfort, and reduce wasted energy.

- Helps stabilize indoor temperatures.
- Improves energy efficiency.
- Adds an even blanket of thermal protection.

FOR TOUGHER AIR GAPS, UPGRADE TO MAXIMUM SEALING POWER

SPRAY FOAM INSULATION

AIR SEAL + INSULATE

- Seals cracks and hard-to-reach gaps.
- Helps block outside heat and air infiltration.
- Delivers high-performance insulation in one step.

A SMARTER ATTIC STARTS WITH THE RIGHT INSULATION STRATEGY

ROOF DOCTORS

Why Traditional Vents Are Not Enough

The Science Behind an Efficient Attic

A well-designed attic creates a strong upward draft that moves hot attic air out of the home. Most attics need 8 to 10 air exchanges per hour to ventilate effectively. Attic height, roof pitch, and proper exhaust design all matter.

DID YOU KNOW?

Without enough air exchanges, attic temperatures can climb above **170°F.**

Not Enough Attic Height

A low-pitched roof may not create the airflow needed for efficient ventilation.

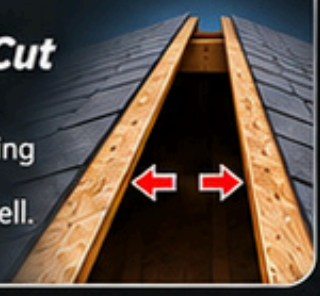

Not Enough Ridge Vent

Many roofs do not have enough ridge vent length to exhaust heat properly.

Ridge Vent Not Properly Cut

Even if ridge vents are present, the roof opening must be cut correctly for them to perform well.

Turbine Vents Have Limits

A typical turbine vent exhausts about 275 CFM. Many homes would need multiple turbines to reach ideal attic air exchange rates.

Traditional venting often falls short.

That's why many homeowners need a more complete attic ventilation solution.

ROOF DOCTORS

SOLAR ATTIC VENTILATION

POWERED BY THE SUN!

Roof Doctors Solar Attic Fans quietly remove trapped heat and moisture from your attic—automatically—improving comfort, energy efficiency and the overall health and longevity of your home.

BETTER COMFORT

Keeps your home cooler and more comfortable.

MORE EFFICIENCY

Reduces attic heat build-up and helps your insulation perform better.

PROTECT YOUR HOME

Removes excess heat and moisture to help prevent damage and extend roof life.

30W SOLAR ATTIC FAN

- High-Performance 30W Solar Panel
- Automatic, Cost-Free Operation
- Durable, All-Metal Construction
- TAS100A Wind/Rain Certified
- Ultra-Quiet, Energy-Free Ventilation
- Built for Year-Round Performance

LIFETIME WARRANTY

COST-FREE, LONG-LASTING VENTILATION FOR A COOLER, DRIER, AND HEALTHIER HOME!

ROOF DOCTORS

SOLAR ATTIC FAN OPTIONS

The right ventilation for every attic.

25W SELF-FLASHING ROOF MOUNT

- 1365 CFM
- Up to 1300 sq ft
- Thermostat Controlled 85°F On / 70°F Off
- Size: 18" x 18" x 8"

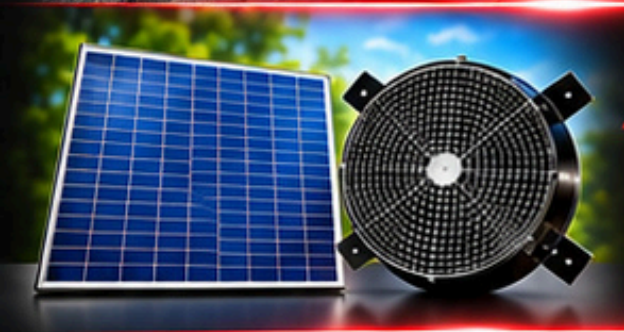

30W SELF-FLASHING ROOF MOUNT

- 1550 CFM
- Up to 1500 sq ft
- Temperature & Humidity Control
- Size: 19" x 19" x 9"
- Adjustable Solar Panel

70W SELF-FLASHING ROOF MOUNT

- 3850 CFM
- Up to 2500 sq ft
- Adjustable Solar Panel
- Size: 27.5" x 29" x 12.5"

30W GABLE MOUNT

- 1550 CFM
- Up to 1500 sq ft
- No Roof Penetration for Fan Housing
- Remotely Mounted Solar Panel

AUTOMATIC OPERATION | WHISPER-QUIET | LIFETIME PRODUCT WARRANTY

THE RIGHT FAN. THE RIGHT FIT. YEAR-ROUND COMFORT.

ROOF DOCTORS

DraftMaster™

STAIRWAY INSULATOR

Seal the Gap. Stop the Loss.

The DraftMaster Stairway Insulator creates a tight, insulated seal for the attic ladder opening, helping stop costly air leaks and improve year-round comfort and efficiency.

DID YOU KNOW?

A 1/4" GAP AROUND A PULL-DOWN LADDER CAN EQUAL THE AIRFLOW OF A BEDROOM—WASTING UP TO **6,000 BTUs** OF ENERGY!

- IMPROVES EFFICIENCY
- ALL-SEASON COMFORT
- BETTER AIR CONTROL
- EASY INSTALLATION

A TIGHTER SEAL FOR A MORE COMFORTABLE, EFFICIENT HOME!

ROOF DOCTORS

RadiantX™

REFLECTIVE RADIANT BARRIER

SPRAY ON COMFORT & EFFICIENCY!

Radiant X™ is a reflective radiant barrier coating engineered to reflect and block ***4.7× more*** of the sun's radiant heat from entering your home.

WITHOUT RADIANT BARRIER	4.7× MORE REFLECTION	WITH RADIANT X™
90% OF RADIANT HEAT ENTERS YOUR ATTIC		**19%** OF RADIANT HEAT ENTERS YOUR ATTIC

COOLER COMFORT

Reigns in high attic temperatures before heat becomes a problem.

GREATER EFFICIENCY

Improves energy efficiency and reduces HVAC strain.

LONGER PROTECTION

Helps extend the life of your roof and home's structure.

TAKE BACK CONTROL OF YOUR HOME!

ROOF DOCTORS

ComfortShield™

ATTIC RADIANT & INSULATION EFFICIENCY

ALL-SEASON COMFORT & EFFICIENCY!

Comfort Shield™ combines radiant heat reflection with insulation efficiency to keep your home cooler in the summer and warmer in the winter — all year long!

INCREASES EFFICIENCY UP TO 25%

BETTER COMFORT
Keeps your home cooler in summer and warmer in winter.

MORE EFFICIENCY
Helps reduce energy use and lower utility costs.

GREATER PROTECTION
Supports a longer life for your roof and home's structure.

PERFORMS AT ITS PEAK IN EVERY SEASON!

ROOF DOCTORS

PROFESSIONAL ROOF CLEANING

POWERED BY OXYGEN BUBBLES

A powerful, eco-friendly cleaner that penetrates deep to lift and remove dirt, algae, mold and stains from your roof — safely and effectively.

OXYGEN BUBBLE CLEANING POWER

SAFE & GENTLE

Safe for plants, pets, kids and waterways.

EFFECTIVE CLEANING

Lifts years of dirt, algae and stains.

EASY APPLICATION

Simple spray & rinse process.

RESTORE YOUR ROOF'S CLEAN, LIKE-NEW LOOK!

ROOF DOCTORS

ShingleSerum®

ROOF REJUVENATION TREATMENT

RESTORE PROTECT EXTEND®

A dual-action, water-based coating that replenishes essential oils and locks in protective granules to revitalize your asphalt shingles.

REPLENISHES OILS

Restores flexibility and durability.

LOCKS GRANULES

Helps reduce granule loss and future wear.

EXTENDS ROOF LIFE

Helps protect for up to **10 YEARS!**

LONG LIVE YOUR ROOF®
